

- The Jeffersonian Age: Thomas Jefferson and James Madison – 1800-1808, 1808-1816)**
- The Era of Good Feelings and Nationalism Ascendant: James Monroe – 1816-1824 (John Quincy Adams: 1824-1828)**

APUSH – Cornwell

Readings Schedule (October 17-27, 2006)

We will take a modified approach for the next several chapters in an attempt to condense the material to its core components and focus our studies more clearly on important issues of antebellum (pre-Civil War) America.

We will use the AMSCO book and other supplementary documents, etc, for the next several chapters as our central reading. The Henretta book (America's History) may be used as the supplementary reading and reference from time to time. The chapters from Henretta are parts of 8 and 9.

We will still stay on a fairly brisk pace but the condensation of material should make these final days before the quarter break somewhat more manageable without sacrificing any essential content.

This period is sometimes easier understood in terms of presidential administrations and the events that occurred in each.
